

Precision Aerobatics Pattern Basics

Omahawks sponsored Seminar for those interested in learning more about Flying & Judging Precisions Aerobatics.

The Seminar will be an estimated 2 hour Program intended to provide information about precision aerobatics (known as pattern) with the primary focus on the key attributes of flying Pattern and how those maneuvers are judged. Learning to Judge is key to understanding how to fly.

The seminar will be based on a YouTube video specific to flying and judging. Omahawk's club members who fly Precision Aerobatics contests will provide an overview for the preparation for contests and what to expect and occurs during the course of a contest and what is expected of those who participate.
